

I am honoured to receive this award.

Although there were ups and downs along the way, I am really grateful to every one who had given me a push and pat on the back.

I am immensely thankful to my family for being my pillar of support, for believing in me and encouraging me in every step along the way.

I also want to thank my teachers for their unwavering dedication in teaching me and sharing life lessons that have shaped me to become a better person. I am grateful to my friends for making school more enjoyable and meaningful. I will always cherish those beautiful times we had together.
